CCA (chromated copper arsenate) is registered for use only in pressure treatment of certain commodities. It is the treater's responsibility to comply with the terms of the label. Only the categories of forest products listed in the Supplemental Labeling for CCA Categories of Forest Products may be treated with CCA and in accordance with the respective Use Categories as specified by the American Wood Protection Association, in the most current edition of the AWPA Book of Standards. Commodity specifications are as identified by the AWPA in its most current edition of standards.

Visit kopperspc.com for SUPPLEMENTAL LABELING FOR CCA CATEGORIES OF FOREST PRODUCTS THAT MAY BE TREATED WITH CCA.
