## Allweather Wood Coos Bay Plant Guide

69015 Hauser Depot Road  
North Bend, OR 97459

The Allweather Wood Coos Bay preservative treated plant is a full-line manufacturing and distribution facility on the southern Oregon Coast servicing Dealers and Wholesalers in the Western U.S. In addition, the Allweather Wood Coos Bay facility possesses expertise in supplying lumber for the export market throughout the Pacific Rim.

The Allweather Wood Coos Bay facility stocks over 18 million feet of preservative treated Douglas-fir on the ground. The facility species mix is 70% Douglas-fir and 30% Hem fir. The Coos Bay facility offers pull-to-piece orders, specialty treated quotes, and Treating Service Only (TSO) services.

Please call our sales office in Washougal, WA at (800) 777-8134 with inquiries regarding this facility.
