## Allweather Wood White City Plant Guide

7893 Pacific Avenue  
White City, OR 97503

The Allweather Wood White City preservative treated plant is a full-line manufacturing and distribution facility in southern Oregon servicing dealers and wholesalers in the Western U.S.

The Allweather Wood White City facility stocks over 10 million feet of preservative treated Douglas-fir. The White City facility offers specialty preservative treated quotes.

Please call our sales office in Washougal, WA at (800) 777-8134 or Woodland, CA at (800) 759-5909 with inquiries regarding this facility.
