SAFETY DATA SHEET

D-Blaze Fire Retardant Pressure Treated Wood

**Section 1 - IDENTIFICATION**

Product Identifier:  
D-Blaze Fire Retardant Pressure Treated Wood  

Trade Names  
D-Blaze Fire Retardant Treated (FRT)  
D-Blaze Fire Retardant Treated Wood (FRTW)  

Recommended Use  
Lumber  

Restrictions on Use  
None known.  

Manufacturer Information  

General Comments  
NOTE: Emergency telephone numbers are to be used only in the event of chemical emergencies involving a spill, leak, fire, exposure, or accident involving chemicals. All non-emergency questions should be directed to customer service.

**Section 2 - HAZARD(S) IDENTIFICATION**

Classification in accordance with 29 CFR 1910.1200.  
Toxic to Reproduction, Category 1B  
Combustible dust.  

GHS LABEL ELEMENTS  
Symbol(s)

Signal Word  
DANGER  

Hazard Statement(s)  
May damage fertility or the unborn child  
May form combustible dust concentrations in air (during handling or processing).  

Precautionary Statement(s)  
Prevention  
Obtain special instructions before use. Do not handle until all safety precautions have been read and understood.  
Wear protective gloves and eye/face protection.  

Response  
IF exposed or concerned: Get medical advice/attention.
SAFETY DATA SHEET

D-Blaze Fire Retardant Pressure Treated Wood

Storage
Store locked up.

Disposal
Dispose in accordance with all applicable regulations.

Hazard(s) Not Otherwise Classified
May cause respiratory tract irritation, gastrointestinal irritation, skin irritation, and eye irritation.

Component Related Regulatory Information
This product may be regulated, have exposure limits or other information identified as the following: Wood dust, all soft and hard woods.

*** Section 4 - FIRST-AID MEASURES ***

Description of Necessary Measures

Inhalation
If adverse effects occur, remove to uncontaminated area. Give artificial respiration if not breathing. Get medical attention, if needed.

Skin Contact
Wash skin with soap and water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention, if needed. Thoroughly clean and dry contaminated clothing and shoes before reuse.

Eye Contact
Flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Then get immediate medical attention.

Ingestion
If swallowed, get medical attention.

Most Important Symptoms/Effects

Acute
respiratory tract irritation, digestive system

Delayed
reproductive effects

Indication of Immediate Medical Attention and Special Treatment Needed, If Needed
IF exposed or concerned: Get medical attention.

*** Section 5 - FIRE-FIGHTING MEASURES ***

Suitable Extinguishing Media
Use regular dry chemical, carbon dioxide, water spray, and regular foam.
Large fires: Use water spray, fog or regular foam.

Unsuitable Extinguishing Media
Do not use high-pressure water streams.
SAFETY DATA SHEET

D-Blaze Fire Retardant Pressure Treated Wood

Specific Hazards Arising from the Chemical
At elevated temperatures: May burn, but does not ignite readily. This product contains flame retardants. Dust/air mixtures may ignite or explode.

Hazardous Decomposition Products
Combustion: oxides of carbon, ammonium compounds, phosphorus compounds, boron compounds

Special Protective Equipment and Precautions for Firefighters
This material will not burn. Product is a fire retardant. Wear full protective fire fighting gear including self contained breathing apparatus (SCBA) for protection against possible exposure.

Fire Fighting Measures
Move product from fire area if it can be done without risk. Cool with water spray until well after the fire is out. Keep unnecessary people away, isolate hazard area and deny entry. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low areas.

*** Section 6 - ACCIDENTAL RELEASE MEASURES***

Personal Precautions, Protective Equipment and Emergency Procedures
Wear personal protective clothing and equipment, see Section 8. Do not touch or walk through spilled material. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Use non-sparking tools and equipment.

Methods and Materials for Containment and Cleaning Up
Wear appropriate protective equipment and clothing during clean-up. Prevent entry into waterways, sewers, basements, or confined areas. Solid material spillage may be wet down with a fine water spray to suppress dust during cleanup. Shovel material into appropriate container for disposal. Wash spill area thoroughly with water.

*** Section 7 - HANDLING AND STORAGE***

Precautions for Safe Handling
Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust. Wash thoroughly after handling. Do not eat, drink, or smoke when using this product. Wear appropriate personal protective equipment recommended in Section 8 of the MSDS. Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Take precautionary measures against static discharges. Dissipate static electricity during transfer by earthing (grounding and bonding) containers and equipment.

Conditions for Safe Storage, including any Incompatibilities
Store locked up. Keep away from heat, sparks and flame.

*** Section 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION***

Component Exposure Limits

SAFETY DATA SHEET

D-Blaze Fire Retardant Pressure Treated Wood

SAFETY DATA SHEET

D-Blaze Fire Retardant Pressure Treated Wood

Saskatchewan: Present (beech, birch, mahogany, oak, teak, walnut, related to Wood dust, all soft and hard woods)
10 mg/m3 STEL (non-allergenic); 5 mg/m3 STEL (allergenic, including cedar, mahogany, teak, related to Wood dust, all soft and hard woods)
5 mg/m3 TWA (non-allergenic); 2.5 mg/m3 TWA (allergenic, including cedar, mahogany, teak, related to Wood dust, all soft and hard woods)

Appropriate Engineering Controls
Provide local exhaust or process enclosure ventilation system. Ensure compliance with applicable exposure limits. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of these product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

Individual Protection Measures, such as Personal Protective Equipment

Eyes/Face Protection
Wear splash resistant safety goggles with a faceshield.

Skin Protection
Wear appropriate clothing to minimize skin contact.

Glove Recommendations
Wear appropriate chemical resistant gloves.

Protective Materials
Provide an emergency eye wash fountain in the immediate work area.

Respiratory Protection
If ventilation is not sufficient to effectively prevent buildup of vapors or mists, appropriate NIOSH respiratory protection must be provided.

*** Section 10 - STABILITY AND REACTIVITY***

Reactivity
No reactivity hazard is expected.

Chemical Stability
Stable under normal conditions.

Issue Date: 12/18/2014 Revision: 1.000
SAFETY DATA SHEET

D-Blaze Fire Retardant Pressure Treated Wood

Possibility of Hazardous Reactions
Hazardous polymerization will not occur.

Conditions to Avoid
Avoid contact with incompatible materials. Avoid flames, sparks, and other sources of ignition. Avoid generating dust.

Hazardous Decomposition
Combustion: oxides of carbon, ammonium compounds, phosphorus compounds, boron compounds

* * * Section 11 - TOXICOLOGICAL INFORMATION* * *

Acute Toxicity
Acute or prolonged exposure may result in irritation of the eyes, skin, gastrointestinal tract and respiratory tract.

Toxicity Data: Toxicology data for components greater than 1 percent in concentration are provided below.
Toxicity data supplied by component manufacturer:
Boron Compound LD50: 45 g/kg

Component Analysis - LD50/LC50
The components of this material have been reviewed in various sources and no selected endpoints have been identified.

Information on Likely Routes of Exposure

Inhalation
May cause respiratory tract irritation.

Ingestion
May be harmful if swallowed.

Skin Contact
Exposure to dust may cause skin irritation.

Eye Contact
May cause eye irritation.

Immediate Effects
respiratory tract irritation, digestive system

Delayed Effects
reproductive effects

Medical Conditions Aggravated by Exposure
No data available.

Irritation/Corrosivity Data
skin irritation, eye irritation

Respiratory Sensitization
No data available.

Dermal Sensitization
No data available.

Germ Cell Mutagenicity
No data available.
**SAFETY DATA SHEET**

**D-Blaze Fire Retardant Pressure Treated Wood**

**Carcinogenicity**

**Component Carcinogenicity**

**Wood/ Wood Dusts (Not Available)**

- **IARC:** Monograph 100C [2012]; Monograph 62 [1995] (Group 1 (carcinogenic to humans), related to Wood dust, all soft and hard woods)
- **NTP:** Known Human Carcinogen (related to Wood dust, all soft and hard woods)
- **DFG:** Category 3B (could be carcinogenic for man, except beech and oak wood dust, related to Wood dust, all soft and hard woods)
- **OSHA:** Present (related to Wood dust, all soft and hard woods)

**Reproductive Toxicity**

Available data characterizes components of this product as reproductive hazards.

**Specific Target Organ Toxicity - Single Exposure**

digestive system

**Specific Target Organ Toxicity - Repeated Exposure**

No information available.

**Aspiration Hazard**

Not expected to be an aspiration hazard.

---

**ECOLOGICAL INFORMATION**

**Ecotoxicity**

No information available for the product.

**Component Analysis - Aquatic Toxicity**

No LOLI ecotoxicity data are available for this product's components.

**Persistence and Degradability**

No information available for the product.

**Bioaccumulation Potential**

No information available for the product.

**Mobility in Soil**

No information available for the product.

---

**DISPOSAL CONSIDERATIONS**

**Disposal Methods**

Dispose of in accordance with all applicable federal, state and local regulations.

**Disposal of Contaminated Packaging**

**Component Waste Numbers**

The U.S. EPA has not published waste numbers for this product's components.

---

**TRANSPORT INFORMATION**

**US DOT Information**

Shipping Name: Not regulated.

**TDG Information**

Shipping Name: Not regulated.

D-Blaze Fire Retardant Pressure Treated Wood

**Section 15 - REGULATORY INFORMATION**

**U.S. Federal Regulations**

All components are on the U.S. EPA TSCA Inventory List.

**U.S. Federal Regulations**

None of this product's components are listed under SARA Section 302 (40 CFR 355 Appendix A), SARA Section 311/312 (40 CFR 370.21), SARA Section 313 (40 CFR 372.65), CERCLA (40 CFR 302.4), TSCA 12(b), or require an OSHA process safety plan.

Acute Health: Yes
Chronic Health: Yes
Fire: No
Pressure: No
Reactive: No

State regulations may apply. Check individual state requirements.

**U.S. State Regulations**

The following components appear on one or more of the following state hazardous substances lists:

<table>
