Allweather Wood Washougal Plant Guide

725 S 32nd Street
Washougal, WA 98671

The Allweather Wood Washougal preservative treated plant is a full-line manufacturing and distribution facility in southern Washington. The facility specializes in Hem fir products for the Washington, Oregon, Alaska, Utah, Montana, and Idaho markets. Douglas-fir items are available to our Washington and northern Oregon-based customers from our Coos Bay and White City facilities (weekly transfer trucks from Coos Bay).

The Allweather Wood Washougal facility inventories over 18 million feet of lumber, plywood, and miscellaneous preservative treated items for prompt shipment. The Washougal facility offers pull-to-piece orders as well as Special Order treated quotes.

Please call our sales office at (800) 777-8134 with inquiries regarding this facility.
